

Assignment: Moodle
wayne.smith@csun.edu
[updated: Thursday, August 28, 2014]

Course: *MGT 360*
Title: *Management and Organizational Behavior (3 units)*

“The best way to predict the future is to invent it.”
---Alan Kay (1940-)

Goal:

I want you to log-in to the campus Learning Management System (LMS) used on campus (called “Moodle”) and update your profile. You might think of Moodle as a simpler and more private social-networking system than “Facebook”.

Deliverable:

Point your web browser to “<http://moodle.csun.edu>”. Log in to Moodle with your CSUN account and CSUN password. All students should have both of these memorized.

The MGT 360 course should be listed on your Moodle front page. If it’s not, it’s on the right-hand side of the screen in the “My Courses” block. Add the MGT 360 course. At the beginning of the semester, there are no activities and resources in the course; however, there may be near the end of the semester.

Select “My Profile Settings” and then select “Edit Profile”. In the “City/town” field, enter the name of the city or community where you live.

In the “User Picture” field (scroll down a bit), upload a picture of yourself. Click on the document icon with a small plus sign (“Add...”) and follow the instructions for uploading your picture. “The requirements for the Moodle picture are similar to the requirements for a picture on a passport—the picture should contain only you, and it should be a clear, unobstructed head shot that is no more than 1 year old.

You can enter in other characteristics in the profile, but none of the others are required for this assignment. When done, click on “Update Profile” at the bottom of the screen.

Log-out of Moodle (click on “Logout” in the upper right-hand corner of the screen).

This Moodle profile will persist through all courses and all semesters while at CSUN. This assignment is due on the date specified on the Course Outline.

Performance Measurement:

The scoring rubric for this assignment is as follows:

1 - completed the assignment
