

Assignment: Moodle
wayne.smith@csun.edu
[updated: Monday, July 5, 2010]

Course: *UNIV 100*
Title: *Freshman Seminar (3 units)*

“The best way to predict the future is to invent it.”
---Alan Kay (1940-)

Goal:

I want you to log-in to the campus Learning Management System (LMS) used on campus (called “Moodle”) and update your profile. You might think of Moodle as a simpler and more private social networking system (e.g., “Facebook”).

Deliverable:

Point your web browser to “moodle.csun.edu”. Log in to Moodle with your CSUN account and CSUN password. All students should have both of these memorized.

Add the UNIV 100 course to your Moodle front page. The UNIV 100 course should be listed on the right-hand side of the screen in the “My Courses” block.

In the “Administration” block on the left-hand side of the screen, select “Profile”. Click “Edit Profile” in the top middle of the screen.

Make sure your “email is enabled”. Additionally, in the “City/Town” field, enter the name of the city or community where you live.

Upload a picture of yourself. The requirements for the Moodle picture are similar to the requirements for a picture on a passport—the picture should contain only you, and it should be a clear, unobstructed head shot that is no more than 1 year old.

You can enter in other characteristics in the profile, but none of the others are required for this assignment. When done, click on “Update Profile” at the bottom middle of the screen.

Log out of Moodle.

This Moodle profile will persist through all courses and all semesters while at CSUN. This assignment is due on the date specified on the Course Outline.

Performance Measurement:

The scoring rubric for this assignment is as follows:

1 - completed the assignment
